

Application

Gravimetric Feeding of Liquids

SCHOLZ LIQUI

Liquid-Feeding-Station

- Output:** starting from 0,1 Liter/h
- Technology:** Gear pump or diaphragm pump
- Operation:** autark with own controller or integrated in multi-component system
- Scale:** digital platform scale
- Hopper Volume:** 10 to 100 Liter
- Refilling:** manual oder automatic drum pump
- Options:** active heated and insulated
active heated pressure hose
wheeled version
Drum pumps with 800 to 1200mm immersion depth
- Werkstoff:** Edelstahl 1.4301, Auffangwanne Stahl verzinkt
- Dimensions:** 1200 x 800 x bis 1700mm (LxWxH)
